DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5, 7-21, and 23-29 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-5, 7-12, and 17-20 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 2 wherein the feedback signal is selected from an internal feedback signal (INTERNAL FEEDBACK) and an external feedback signal (FBIN) in combination with the rest of the limitations of the base claims and any intervening claims. Claims 13-16 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 2 wherein the circuit comprises means for selecting from a plurality of input signals (210); means for selecting from a plurality of feedback signals (212, 214) and means for providing configurability and in-system programmability (110, see Figure 1) in combination with the rest of the limitations of the base claims and any intervening claims. Claims 21 and 23-25 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 2 further including a clock divider (202) coupled between the input circuit (208, 210) and the phase locked loop (206) in combination with the rest of the limitations of the base claims and any intervening claims. Claims 26-29 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 2 wherein the clock generator is in-system programmable by supporting IEEE 1532 standards in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
